AGENDA

7 a.m. to 2 p.m.	Registration • Lobby			
7 a.m. to 8:30 a.m.	Continental Breakfast • Conference Theatre Lobby			
8 a.m. to 9:30 a.m.	Welcome • Conference Theatre <ul style="list-style-type: none"> • Mark Conselyea, Associate Vice President of Facilities Operations and Development, The Ohio State University • Larry M. Johnson, OSHA Columbus Area Director <p>Keynote Speaker Dale Lesinski, DiVal Safety</p> <p>Safe 4 the Right Reasons - Why the conventional approach (rules, regulations, policies, procedures) to employee safety misses the mark, thus delivering frustrating and meager results. The "Safe 4" message explains our human nature ... why we do some of the things we do and why we don't do some of the things we should. The message appeals to the critical aspects that drive behavior change and motivates employees to be safe, both for themselves and for others who count on them. It delivers a respectful way every employee can watch out for one another, so when they see something, they can say something.</p>			
9:40 a.m. to 10:40 a.m.	MOBILE WORK PLATFORMS David Hoover (Forklift Training System) Kokosing Mid-Size Equipment Training Team The new ANSI standards for MEWP (Mobile Elevating Work Platforms) will present every company that owns, uses, or rents scissor and boom lift with many new challenges. Learn about these sweeping changes and how to get your company and operators into compliance. In the second hour, the Kokosing Mid-Size Equipment Training Team will discuss best management practices that they use to comply with the new ANSI Standard for MEWPS.	SAFE 4 CULTURE CHANGE PROGRAM Dale Lesinski (DiVal Safety) Improving your safety culture is not as tough as you think, especially if you know what to do and how to do it. This session will cover several key components to culture change and identify the most common mistakes. Many companies desire to have a positive safety culture and eliminate injuries, but they just don't know how to do it, so they default into conventional means and hope to get lucky. The "Safe 4" program delivers what to do and how to do it. Attendees will walk away with fresh ideas and new approaches to improving their safety culture.	DRUGS AND ALCOHOL INTOXICATION IN THE WORKPLACE Dr. Michael Kelley Learn about signs of intoxication and drug testing methods.	POWER LINE AWARENESS AEP Ohio Learn about common hazards while working around power lines. Whether you work for a tree trimming company or are doing work around your home, you deal with high voltage hazards more often than you think. AEP will offer insight on how to stay safe around high voltage electricity.
10:50 a.m. to 11:50 a.m.			ACTIVE THREATS ON THE JOBSITE The Ohio State University Department of Public Safety It's scary to think about, but an active aggressor could strike at any place, at any time. Learn strategies to prepare workers to respond to an active threat while on location.	Weather permitting ... AEP LIVE DEMO Tracy West (AEP) The live line demonstration is a visual learning experience about what can happen when power lines are contacted. See live examples of what happens when everyday materials, heavy equipment, and animals contact power lines in AEP's newly renovated demonstration trailer.
Noon to 1:00 p.m.	Lunch • Ballroom Conversation with the Ohio OSHA Area Directors			
1:10 p.m. to 2:10 p.m.	UNCONVENTIONAL FALL PROTECTION Matthew Patterson (Pure Safety Group) Learn about new advances in fall protection equipment. Are there options when conventional fall protection isn't available?		SUICIDE PREVENTION Prevention Awareness Support Services (PASS) - This session will discuss risk factors and warning signs and what local resources are available.	WORK ZONE SAFETY Scott Porter (City of Columbus) Learn about the basics of work zone safety, such as how to set up lane and roadway closures, perform flagging operations, and how to set up sidewalk and bike lane closures.
2:20 p.m. to 3:20 p.m.	LEADING EDGE Matthew Patterson (Pure Safety Group) Learn the leading edge in fall protection and how to keep people safe. Discuss rescue as it relates to a fall and what needs to be done.		FOCUS FOUR CASES Columbus OSHA Office Learn about cases related to the focus four of caught-in, struck-by, electrical, and fall hazards.	FORKLIFT SAFETY AND COMPLIANCE David Hoover (Forklift Training System) Forklifts are one of the most dangerous pieces of equipment on any job site. Learn the most common causes of injury and death and how to keep your people and those working around them safe and in compliance with OSHA standards.
3:30 p.m.	Wrap-up, Raffle • Ballroom
